

High productivity - ensuring mail quality and integrity

Full flexibility - creating business opportunities

For any environment - every user will love it

Easy to use - saving valuable time

#### Several configurations for a wide variety of mail items

By offering several feeder configurations, the DS-75 allows you to design and deliver attractive messages, making a major contribution toward efficient direct mail campaigns. Its flexibility is essential for delivering a truly professional mail set (with all documents folded together) every time. It also ensures perfect presentation and reduces the risk of jams. Last but not least, it guarantees the integrity of your mail.

#### Smart solutions to maximise flexibility

The exclusive flexFeed feeders enable you to process any document size or type. This provides full flexibility in combination with the unique semi-automatic envelope separation mechanism for feeding a wide variety of envelope types. You can use practically any size and type of material to address your prospective and current customers efficiently. As a result, the DS-75 will make a key contribution toward enlarging your market and business opportunities by offering unlimited possibilities for transactional and direct mail applications.

#### Features & Benefits

##### Operational efficiency

Speed	Up to 3,600/hour
load'n Go automatic setting	Yes
flexFeed multi-format feeder	Yes
Multiple sheet feeding	Yes
Cascade from all feeder	Yes
Number of feeders	Up to 3 feeders
powerFold folding capacity	Yes (up to 10 sheets 80 gsm)
Job memory	25
Manual feed	Yes
Document feeder capacity	325 sheets 80 gsm
High capacity document feeder	Optional
725 sheets 80 gsm	
Envelope feeder capacity	325
High capacity vertical stacker	Optional
up to 500 envelopes	
Fold types	Letter, zigzag, single, double parallel, no fold
Different exits	Optional side exits
Insert 'n Frank franking system integration	Optional
Document height	90-356 mm
Document width	130-230 mm
Document weight	60-250 gsm
Envelope length	90-162 mm
Set thickness	2,5 mm
Envelope width	160-248 mm
Tailor-made furniture	Optional

##### Mail quality & security

secure'n Feed double detection	Yes
Accumulate before folding	Yes
Barcode Reader (BCR)	Optional
Optical Mark Recognition (OMR)	Optional
Optional Mail Piece Production Control (MPPC)	Optional
powerFold	Yes (up to 10 sheets 80 gsm)
Tip to tip sealing	Yes

##### Budget optimisation

Output Management Software	Optional
insert'n Frank franking system integration	Optional

##### Online management

Remote assistance	Optional Online Service (OLS)
New jobs upload	Optional Online Service (OLS)
Preventive maintenance	Optional Online Service (OLS)
Online service diagnostics	Optional Online Service (OLS)

models shown: DS-75 max capacity, DS-75 high capacity, DS-75 plus with high capacity sheet feederPN

#### System Specification

Standard configuration:	3 feeders with catch tray
Length x Height x Depth	1,300 x 725 x 454 (mm)
Weight	75kg

#### Total mail flow optimisation: send more for less

The Neopost insert'n Frank solution allows you to automate your total mail flow by connecting the DS-75 to a Neopost franking system. Together with the Neopost's flexFeed feeders and high folding capacity this enables you to optimise franking rates. It will also reduce downtime while processing all mail in one run.

#### Why choose neopost?

Neopost make it easier to send and receive mail, email, SMS and packages so you can connect better with your external and internal customers.

Our equipment and advanced software can help you reduce costs, grow your business, manage digital communications and comply with latest legislation.

We can assist with design, production and distribution of transactional and marketing mail. And when customers respond we make it simple to process, track and store documents and emails.

Our team of expert Account Managers will tailor solutions to meet your needs. An extensive support network of field engineers, contact centre and on-line tools are available to ensure our solutions keep delivering.

## Productivity made easy

Are you working in an environment where mail matters and response time is key?

With its compact footprint, large loading and unloading capabilities and many enhanced features, usually available only on larger systems, the DS-75 brings you the highest level of convenience, productivity and versatility.

High productivity - ensuring mail quality and integrity

full flexibility - creating business opportunities

for any environment - every user will love it

easy to use - saving valuable time

## Customising your DS-75 to your needs is simply choosing the right configuration:

DS-75 Configuration 1

- 2 standard feeders
- 1 expert or special feeder
- envelope catch tray

DS-75 Configuration 2

- 2 standard feeders
- 1 expert or special feeder
- high capacity vertical stacker

DS-75 Configuration 3

- 1 high capacity feeder
- 1 expert or special feeder
- high capacity vertical stacker

DS-75 Configuration 4

- 1 high capacity feeder
- 1 maxiFeeder
- high capacity vertical stacker

### Barcode mail manager: personalising mail made easy

Not only does the barcode reading solution offer a fast and safe way of processing personalised mail, it also ensures perfect presentation. It enables you to greatly improve direct marketing activities and thus customer relations. It also gives you the satisfaction of knowing that you can send more for less while easily optimising franking rates.

### Improve communication impact while reducing costs

Neopost software management opens up a whole new world of mail creation possibilities. The DS-75's automatic file sorting and merging capabilities will optimise costs per recipient. Moreover, the print machine document software helps you to add Optical Mark Recognition (OMR) or Barcode Recognition (BCR) marks to process jobs with variable page sets per recipient.

### Automatically adapting to all your needs

There's no need for skilled operators thanks to the control panel with a graphical and intuitive touch screen that's able to maximise ease of use. Just select your job and you will be finished before you know it. Alternatively, see how easy it is to create a new job using our exclusive load'n'Go intuitive procedure. Simply load your documents and envelopes and then press the start button. The DS-75 will automatically measure the length of all loaded documents as well as the envelope in order to adjust all settings and deliver the appropriate mail item.

### Smart solutions to maximise ease of use

The DS-75 gives you quick, safe and easy access to all parts of the paper path. You will quickly be up and running again if a break in production occurs. Furthermore, both the DS-75's exceptional ease of use and its extraordinary quietness are of paramount importance. As a result, it adapts perfectly to any working environment.

### Several configurations for a wide variety of mail items

By offering several feeder configurations, the DS-75 allows you to design and deliver attractive messages, making a major contribution toward efficient direct mail campaigns. Its flexibility is essential for delivering a truly professional mail set (with all documents folded together) every time. It also ensures perfect presentation and reduces the risk of jams. Last but not least, it guarantees the integrity of your mail.

### Smart solutions to maximise flexibility

The exclusive flexFeed feeders enable you to process any document size or type. This provides full flexibility in combination with the unique semi-automatic envelope separation mechanism for feeding a wide variety of envelope types. You can use practically any size and type of material to address your prospective and current customers efficiently. As a result, the DS-75 will make a key contribution toward enlarging your market and business opportunities by offering unlimited possibilities for transactional and direct mail applications.

### The solution for multiple pages and various inserts

The DS-75 has an innovative and very intuitive solution for processing documents with varying pages and inserts. Simply select a grouping criterion, such as the invoice number, and you can collate multiple pages for the same recipient. You can even define different additional inserts for each group of recipients.

This unique software solution enables you to design direct mail applications in only a few minutes.

### Monitor, secure and track your production output

Neopost offers you the security of knowing that your printed jobs are actually being mailed. Mail Piece Production Control adds a unique ID to each letter within the address block and builds up an audit trail for each production job. This provides you with real-time quality control and detailed line-item reports:

- Assurance that jobs are accurate and complete
- Real-time failure detection of missing or 'out-of-order' mail items
- A hard-copy 'Proof of Mailing' report for each mail production job
